

TUMBLE TOWER

The object of the game is to remove one block at a time from the tower and stack it on top. The last player to stack a block, without making the tower fall, wins the game. Play individually or with teams.

Instructions:

1. Build the tower on a flat sturdy surface. Place 3 blocks in each layer at right angles to the previous layer. Straighten blocks so blocks all line up neatly.
2. Select player/team member from the group who built the tower first. Play continues left.
3. When it's your turn, carefully remove one block from anywhere **BELOW** the highest completed story using **ONLY** one hand. You can switch hands if you need to. Then stack your block on top of the tower at right angles to the blocks below.
4. Your turn ends 10 seconds after you stack your block.
5. Keep removing and stacking the blocks until the tower falls. Last player/team to take a turn without making the tower fall wins!
6. The player/team that caused the tower to fall is responsible for setting up the tower for another game or packing it up to play another time.
